

**January 25, 2020 at ENU after named L. N. Gumileva the Department of "space technology and technology" took part in the open day "entrant-2020"**

January 25, 2020 at the Eurasian national University.L. N. Gumilyova held an open day "entrant-2020" for graduates of schools in Nur-Sultan. It was attended by heads of the University, deans of faculties, heads of departments, faculty, school graduates, teachers and parents.

Students of the faculty of information technology took part in a master class on robotics and IT technologies, which was held in the "Kultegin"atrium. Then, after seeing an exhibition of the best works of students of the educational program "Design and Architecture", they visited the museums "history of writing", "Gumilyov" and "history of education".

3rd year student of the Department Bolatzhan Karakat took part in this event. Graduates of the school talked to graduates, told about their studies, about their specialties.

Head.Department Zhakupova A. E. and teachers of the Department Abdrashev M. K. and acting associate Professor Anuar made a presentation and booklets on the educational program "space technology and technology". Interest was aroused by graduates, school teachers and parents.
