

**For undergraduates and bachelors of the 1st year of the Department of Space Engineering and Technology, training sessions in the traditional format have begun.**

In the spring semester of the 2020-2021 academic year, students of the Eurasian National University switched to a mixed learning format from January 18. On February 1, the Department of "Space Engineering and Technology" of the Faculty of Physics and Technology began training sessions in the traditional format for undergraduates and bachelors of the 1st year. For undergraduates and bachelors of the 1st year, lectures are held online, laboratory and practical classes are held in the traditional format.

Due to the sanitary and epidemiological situation in the country, a 2-shift schedule of classes has been formed for students. All sanitary and epidemiological requirements are met in the academic buildings and classrooms of the university. Students and faculty should carry medical masks and gloves.
