

Introductory conference on industrial practice of 4th year students of the specialty "Space engineering and technologies"

At 14:00 on December 27, 2021, an offline kick-off conference was held. The conference was attended by the faculty of the department and the curator of the 4th year in the specialty Space Engineering and Technology.

The curator of the 4th year, teacher Anuar G.A., made a welcoming speech, explained to the students the purpose of the introductory conference and its tasks.

Responsible for the practice in the department, senior lecturer, PhD Bazarbek A.B. familiarized the students with the Internship Program, explained the goals and objectives of the internship, issued diaries-reports and a schedule, explained how to fill out all the documents and introduced the period of the internship and the time for defending reports based on the results of the internship.

After the students asked questions, to which the leaders of the practice gave exhaustive answers.

Conclusion: Consider the introductory conference on the industrial practice of 4th year students of the specialty Space Engineering and Technology as held. Send students for practical training at the "Laboratory of small spacecraft" at the department of CT and T, JSC NC "Kazakhstan Garysh Sapary", LLP "Aerospace and Special Engineering" and the Committee of Telecommunications of the Republic of Kazakhstan.
