

Introductory conference on research practice of undergraduates of the 2nd year of the specialty "Space engineering and technology"

At 14:00 on December 28, 2021, an offline kick-off conference was held. The conference was attended by the faculty of the Department of Space Engineering and Technology.

The adviser of the 2nd year undergraduates, senior lecturer Kalmanova D.M., made a welcoming speech, explained to the undergraduates the purpose of the introductory conference and its tasks.

Responsible for the practice in the department, senior lecturer, PhD Bazarbek A.B. familiarized the undergraduates with the Internship Program, explained the goals and objectives of the research practice, issued diaries-reports and a schedule, explained how to fill out all the documents and familiarized with the period of the research practice and the time for defending reports on the results of the practice.

After the undergraduates asked questions, to which the leaders of the practice gave exhaustive answers.

Conclusion: Consider the introductory conference on the research practice of 2nd year undergraduates of the specialty Space Engineering and Technology as held. Send undergraduates for research practice in the laboratory complex of the accumulative and robotic structure at the department of CT and T, LLP "Aerospace and Specialized Engineering" and LLP "Kazakhstan Aviation Industry".
